"Even though the 7 horse appears to have a line that is slightly faster than the rest, I don't feel he will wire this race because of the pressure he will receive from the other early horses. I designated this race 'other than early', and in this next screen shot removed the early and early presser lines.

From a MatchUp point of view the 6, Code Red, appears to be a standout. The three also looks good, but he was put away by the 6 in their most recent race--a tandem. The four's pace of race is too slow and he is eliminated from contention. The 8 comes from too far back, but he will be closing with a rush. I don't believe he will get up in time. There are better pressers in this race."

Chris notes: "On this three race cycle, bet \$63.50, won \$404.65. After subtracting earlier losses, netted a little over \$200.00. Very pleased with the seamless move from DOS to the Windows platform that you've engineered. Adding the new tracks, that were not in play with val2 & 3c, especially Colonial Downs, resulted in my largest win of the year. As an after thought, these three races were run after an equatorial rain storm that delayed the races for about an hour. No visible effect on the Poly track."
